

Black Mountain Open Space Park Volunteer Trail Work SUNDAY, April 15, at 8:30am

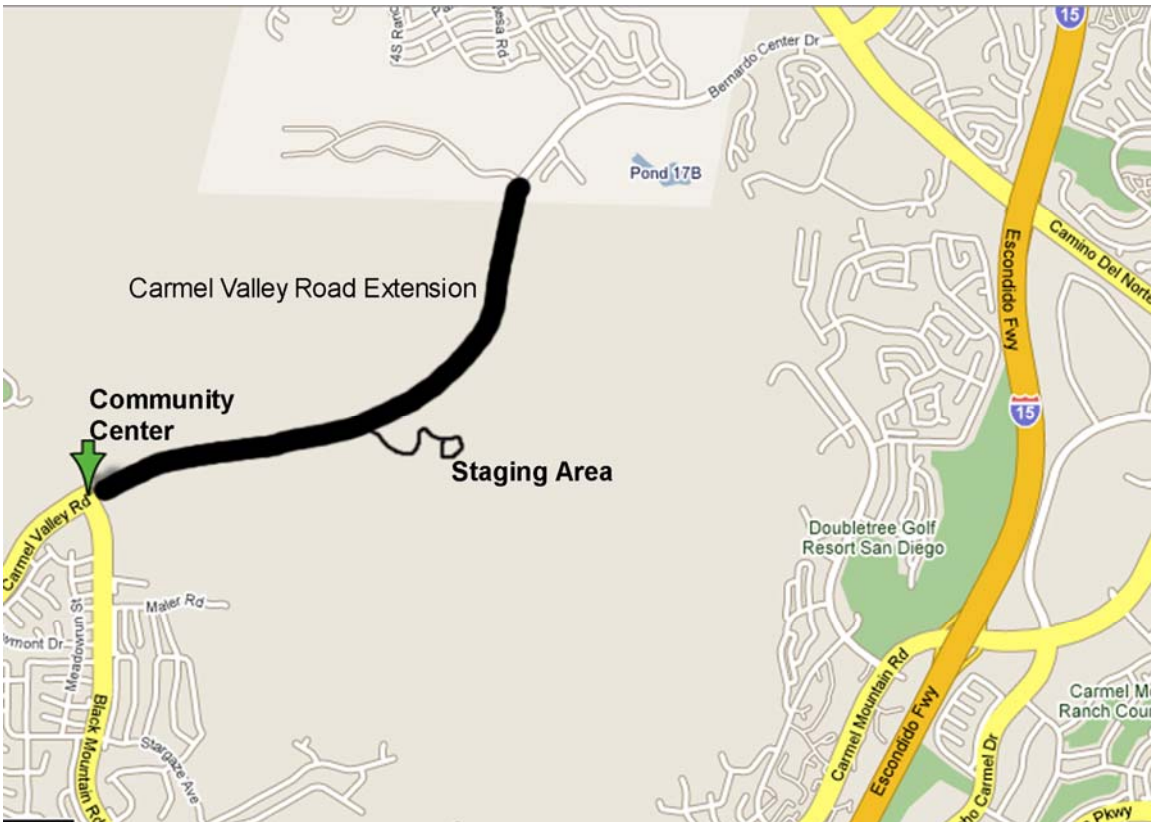

More than five years ago, SDMBA took the lead in maintaining and developing new trails at Black Mountain Park. As a result of the hundreds of hours we've put in to date, we have one new single-track open to mountain biking, another new single-track winding its way through the city approval process, and other trails in the proposal stage. In addition, 18 miles of new trails have opened up since January 2005.

Join us on SUNDAY, April 15, at 8:30am to help maintain the trails we've for which we've worked so hard to gain access. We'll be doing tread work, brushing, and other maintenance to "re-open" Miner's Ridge Loop Trail, which will be once again accessible when Carmel Valley Road opens in April/May.

Black Mountain Bicycles (Mira Mesa at Black Mountain Road) is once again generously sponsoring this weekend's trail work and will be providing schwag we'll be randomly awarding to volunteers. In addition, there will be Clif bars and other giveaways, so no one will be going home empty-handed.

Please call (858-349-4930) or email (dave@sdmba.com) Dave Wenk for more information. Hope to see you there! **Directions:** From SR56 (Ted Williams), exit Black Mountain Road. Go NORTH on Black Mountain Road about three miles to Carmel Valley Road and make a RIGHT. If the new Carmel Valley Road extension is open, proceed to the Staging Area. Otherwise, park at the Community Center.

SAVE OUR SINGLE-TRACK!
